

# Canine Complete™

A proprietary blend of certified organic, human-grade ingredients to ensure the health and longevity of your pets.

Dogs, just like us, can only reach their maximum genetic potential if their diet delivers maximum nutrition. Commercial dog foods cannot achieve this lofty goal, because they are not formulated for maximum nutrition. What's more, no one dog food can meet every dog's individual needs. To enjoy robust health, your dog should receive a high quality vitamin/mineral supplement, along with essential fatty acids, enzymes, and other nutrients. Until now, most of us have had to buy several supplements and hope that they were the right combination. Wholistic Canine Complete™ changes all this with one easy-to-use complete supplement.

Wholistic Canine Complete™ is a proprietary blend of whole, natural foods brimming with vitamins, minerals, amino acids, and enzymes. These nutrients come from whole foods, not synthetic ingredients, so your dog can easily assimilate them for pure, maximum nutrition.

- Vibrant health
- Long-term well-being
- Healthy digestion
- Healthy immune system
- Normal cardiovascular function
- Normal gut flora
- Gorgeous skin & coat

## A Unique Blend of Premium Ingredients

The ingredients that make up Wholistic Canine Complete™ are all organic, human-grade, and super-fresh. These high standards apply to each and every ingredient used to formulate Wholistic Canine Complete™:

- Our certified organic kelp is the finest available worldwide. Because of its purity and potency of nutrients, especially minerals, this kelp offers maximum glandular support, especially for the thyroid and pituitary gland.
- Hydrolyzed whitefish offers supreme palatability and is exceptionally high in protein content (>85%). This pre-digested, completely absorbable protein offers a full spectrum of amino acids for proper growth, development, and maintenance. Using whitefish instead of dried liver or cheeses eliminates concern for contaminated beef products and problems associated with dairy products.
- Probiotics, concentrated at 10 billion CFU's/gm, offer supreme viability and effectiveness for maximum results.
- Ester-C® is the most rapid, easily assimilated form of Vitamin C, and is gentle on the stomach lining.
- Our garlic is Certified Organic by the California Organic Act of 1970.

These are just some of the highlights of the whole foods used in Wholistic Canine Complete.™ Each of these carefully-chosen ingredients would result in positive health for your pet. Working together as part of our exclusive blend, these ingredients offer your pet a powerful defense against avoidable health problems. Thousands of show and companion dogs and puppies have used Wholistic Canine Complete™ for years, with superb results.

## Daily Feeding Directions:

Initially introduce Wholistic Canine Complete™ by starting with 1/4 the recommended level, gradually increasing over one week.

- 1 scoop\* daily per 30 lbs. of body weight.
- 2 scoops daily for 60 lbs. and over.
- For puppies and dogs under 30 lbs.: 1/3 scoop per 10 lbs.

Simply mix in your pet's regular food. Daily amount may be divided amongst feedings. Amount can be adjusted to suit individual dog's needs.

1 scoop\* = 1 tbsp

Crude Fiber (not more than) .....	22%
Moisture (not more than) .....	7%

Available in 8 oz, 1, 2, 4, 8 and 20 lb.

*A Holistic Pet is Happy & Healthy®*

## Results You Can See—In Just a Few Weeks

The benefits of giving your pet Wholistic Canine Complete™ are profound. Most customers notice a distinct improvement in their pet's appearance after just a few weeks of feeding.

The skin and coat are usually the first indicators of what is happening inside. You'll soon see the development of a thick, lustrous coat of fur along with supple, healthy skin. Allergies will start to disappear, as well as telltale signs like face-rubbing, feet and tail chewing, dandruff and scratching.

What you won't see is all the good that is truly happening inside: support of a stronger immune system and elimination of damaging free radicals that can promote disease and premature aging. Your pet will also enjoy better digestion and stronger cells, tissues, and organs that are functioning at their best—because they are receiving maximum nourishment.

Wholistic Canine Complete™ is designed for your pet's health. We think you and your pet will agree!
