

# Canine Complete Joint Mobility™

Organic, human-grade  
premium nourishment with  
concentrated joint support  
for Total Body Health™

As our pets grow older, proper nutrition becomes more important than ever in maintaining their health and well-being. Inflamed, achy joints might be the first sign that your pet is showing its age.

Wholistic Canine Complete Joint Mobility™ is an all-in-one, organic, human-grade joint support supplement that provides your pet with concentrated joint and cartilage protection and support—all in one tasty, easy-to-feed formula that dogs just love!

Wholistic Canine Complete Joint Mobility™ delivers the support needed to prevent sore, uncomfortable joints and to help relieve signs of arthritis. At the same time, it provides a concentrated blend of other supportive components—all available in one, highly effective, daily animal health product that supports every aspect of an aging pet.

Wholistic Canine Complete Joint Mobility™ starts with the same organic, raw ingredients found in Wholistic Canine Complete™. Unlike synthetic products, Wholistic Canine Complete Joint Mobility™ provides a vast array of beneficial ingredients that are readily assimilated by your pet for optimal health. We combine these with pharmaceutical grade glucosamine, chondroitin and MSM, which is especially important in older dogs, or in any working dog or large breed subject to joint stress.

Wholistic Pet Organics™  
is a proud member of the  
National Animal Supplement  
Council (NASC).

- Supports normal joint function and much more...

Wholistic

# Canine Complete Joint Mobility™

## The Highest Quality Ingredients, Together in One Unique Blend

Wholistic Canine Complete Joint Mobility™ is based on a unique blend of pure, premium ingredients including:

- Chondroitin—provides potent support for damaged joints. We use chondroitin derived from shark cartilage, not bovine cartilage because it allows healing to occur, while helping to prevent calcification in joints.
- Glucosamine—a natural building block of cartilage that is used in the rebuilding process of cartilage
- MSM—helps maintain normal, healthy connective tissue in joints; helps control symptoms of joint discomfort
- Patented Ester C®—the most effective, Body-Ready™ form of Vitamin C, which research has shown to be a necessary and vital component of cartilage formation; powerful antioxidant.
- Digest All Plus™ enzyme complex—aids in maintaining normal, healthy joint function.

We think you will agree that Wholistic Canine Complete Joint Mobility™ is the leading joint support formula. It's the one that leading holistic veterinarians recommend.

### Directions for Use:

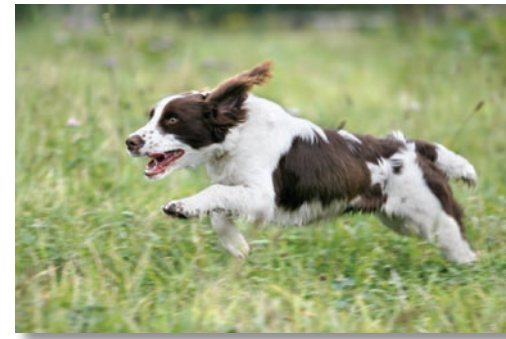

Initially introduce Wholistic Canine Complete Joint Mobility™ by starting with 1/4 the recommended dosage, gradually increasing over one week.

#### Daily Dosage:

1 tsp/10 lbs (1 tbsp/30 lbs)  
2 tbsp for dogs 60 lbs and over

Can be given during or after mealtime. Administer daily. Divide amount equally if administered more than once per day.

**Contraindications:** Do not feed if your pet is pregnant or about to be bred.
